

HOME.WINDOW

INTENDED USES:

Easy windows cleaning products designed for outdoor glass protection. Products safe protects, recovers and polishes glass windows, showcases, solar panels and other glass facing materials. An ideal helper for sparing housewives, nanotechnology based, washing and nano protective product for cleaning window. It guarantees cleanness and brilliance in your home.

PRODUCT DESCRIPTION:

Product made from organic mixture liquid polymers which stays intact for a long time if not being exposed to air. Mixture of polymers has excellent fluidity and can distribute itself to a surface by a very thin layer. 1g of the products easy covers 1m<sup>2</sup> of the surface.

Products have excellent adhesive properties (product stick to the surface very well). Coating is formed on top of the surfaces is optically transparent and in many cases improves the looks and fixes defects by filling small cracks and scratches.

There is metal oxides nano particles composition inserted into polymer composition. Nano components inside the products create continuous, invisible to eye layer of small particles.

An ideal helper for sparing housewives, nanotechnology based, washing and nano protective product for cleaning window. It guarantees cleanness and brilliance in your home. It's applied to windows, greenhouses, plastic and painted surfaces and others. Home.Window enables for efficient and infrequent applications without chemical cleaning agents.

Suitable to use year-round. Exhibit long lasting protective properties (up to 6 months). Consumption: 3g/m<sup>2</sup>. One bottle is sufficient to cover 60–70m<sup>2</sup> or 90-120m<sup>2</sup>, depends from volume bottle 200ml or 300ml.

Keeping time: 3 years from date of manufacture (in packing).

TECHNICAL INFORMATION:

Parameter	Specification
Appearance	Milk color oily liquid
Boiling point, C min.	197
Density at 20°C	1,010-1,048
Melting point, C max.	-55
Viscosity dynamic at 20°C	15-25
Flash point, C, min.	119
Solubility	Alcohol, Ether, Acetone

Removing coating from surface is possible with alcohol (ethyl or isopropyl), also by steam and next mechanically with microfiber cloth.

SURFACE PREPARATION:

Surface must be dry and clean before applying first time. For re-coating necessary only dry surface. It is not recommended to treat the window glass inside placement when not good air exchange because super hydrophobic surface can be reason of the unwanted sweat in window glass.

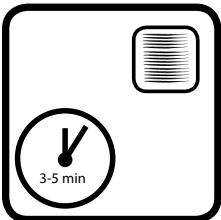

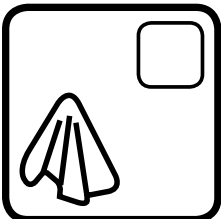

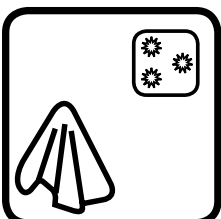

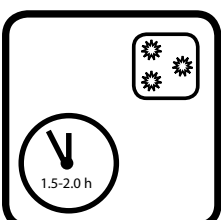

APPLICATION:

For application recommended microfiber cloths: terry structure for distribution/removing exceed of the product and

plane (polish) structure for polishing coated surface. Both cloths must be prepared from 20% polyamide and 80% polyester and density not less 250g/m<sup>2</sup>

Coat is possible under any outdoor temperature.

Recommended use product quantity as less as possible. Consumption is only 3g/m<sup>2</sup> with possible losses. Useful coating in surface is only 1g/m<sup>2</sup>.

	<p>Shake the bottle before use. Stream the small quantity of product to terry cloth Cloth.Terry without excess. Close trigger after use.</p>
	<p>Evenly distribute the product on dry surface by Cloth.Terry.</p>
	<p>Wait 3-5 min.</p>
	<p>Remove exceed the product by same terrycloth.</p>
	<p>Polish by plain cloth Cloth.Polish the surface.</p>
	<p>Don't expose the surface by rain or by action with wet cloth about 1,5-2 hours. Protective surface is obtained the best protection in 12 hours after coating.</p>

PRODUCT HAZARDS AND SAFETY INFORMATION:

See Material Safety Data Sheet for complete Health and Safety information. Do not use in confined areas without the proper safety precautions/equipment.

ADDITIONAL DATA:

Product is prepared according to existing legislation European Union. Product has not volatile matter and holds the nano components tight inside its structure. Nano particles cannot be separated one from polymer mixture. It guarantees that nano-sized particles do not get "loose" and incur to human organism and harm our health and surrounding environment. Product waster

Lasting effect: 6 months min and depend from external environment.

PACKING OF THE NANOTECH EASY TO CLEAN PRODUCT CLEVERCLEAN FOR WINDOW

Product is packed in a convenient plastic bag, where you will find:

200ml or 300ml trigger sprayer bottle

Microfiber cloths 30cm x 30cm: terry and polish;

Inlay with user manual.

20 sets carton;

Carton's size: 38cm x 59cm x 22cm

Carton's gross weight (200ml set): 7.40kg

Carton's gross weight (300ml set): 9.75kg

Pallet: 40 cartons/800 bottles

Pallet's size: 120cm x 100cm x 192cm

Pallet's gross/net weight (200ml set): 300kg/321kg

Pallet's gross/net weight (300ml set): 390kg/415kg

Labels in three languages: English, Estonian, Russian;

Order customized labels is beginning from 500 units min. per product.

SHIPPING AND EXPORT INFORMATION

Non-hazardous for any transportation.

Export HS code: 3405909000
